Taillight and Illumination (for Canada)

The diagram illustrates the electrical system for the rear of the vehicle, organized into four main sections: Power Source, Stop Light, Interior Light, and Back-Up Light. The wiring is color-coded and labeled with alphanumeric codes for identification.

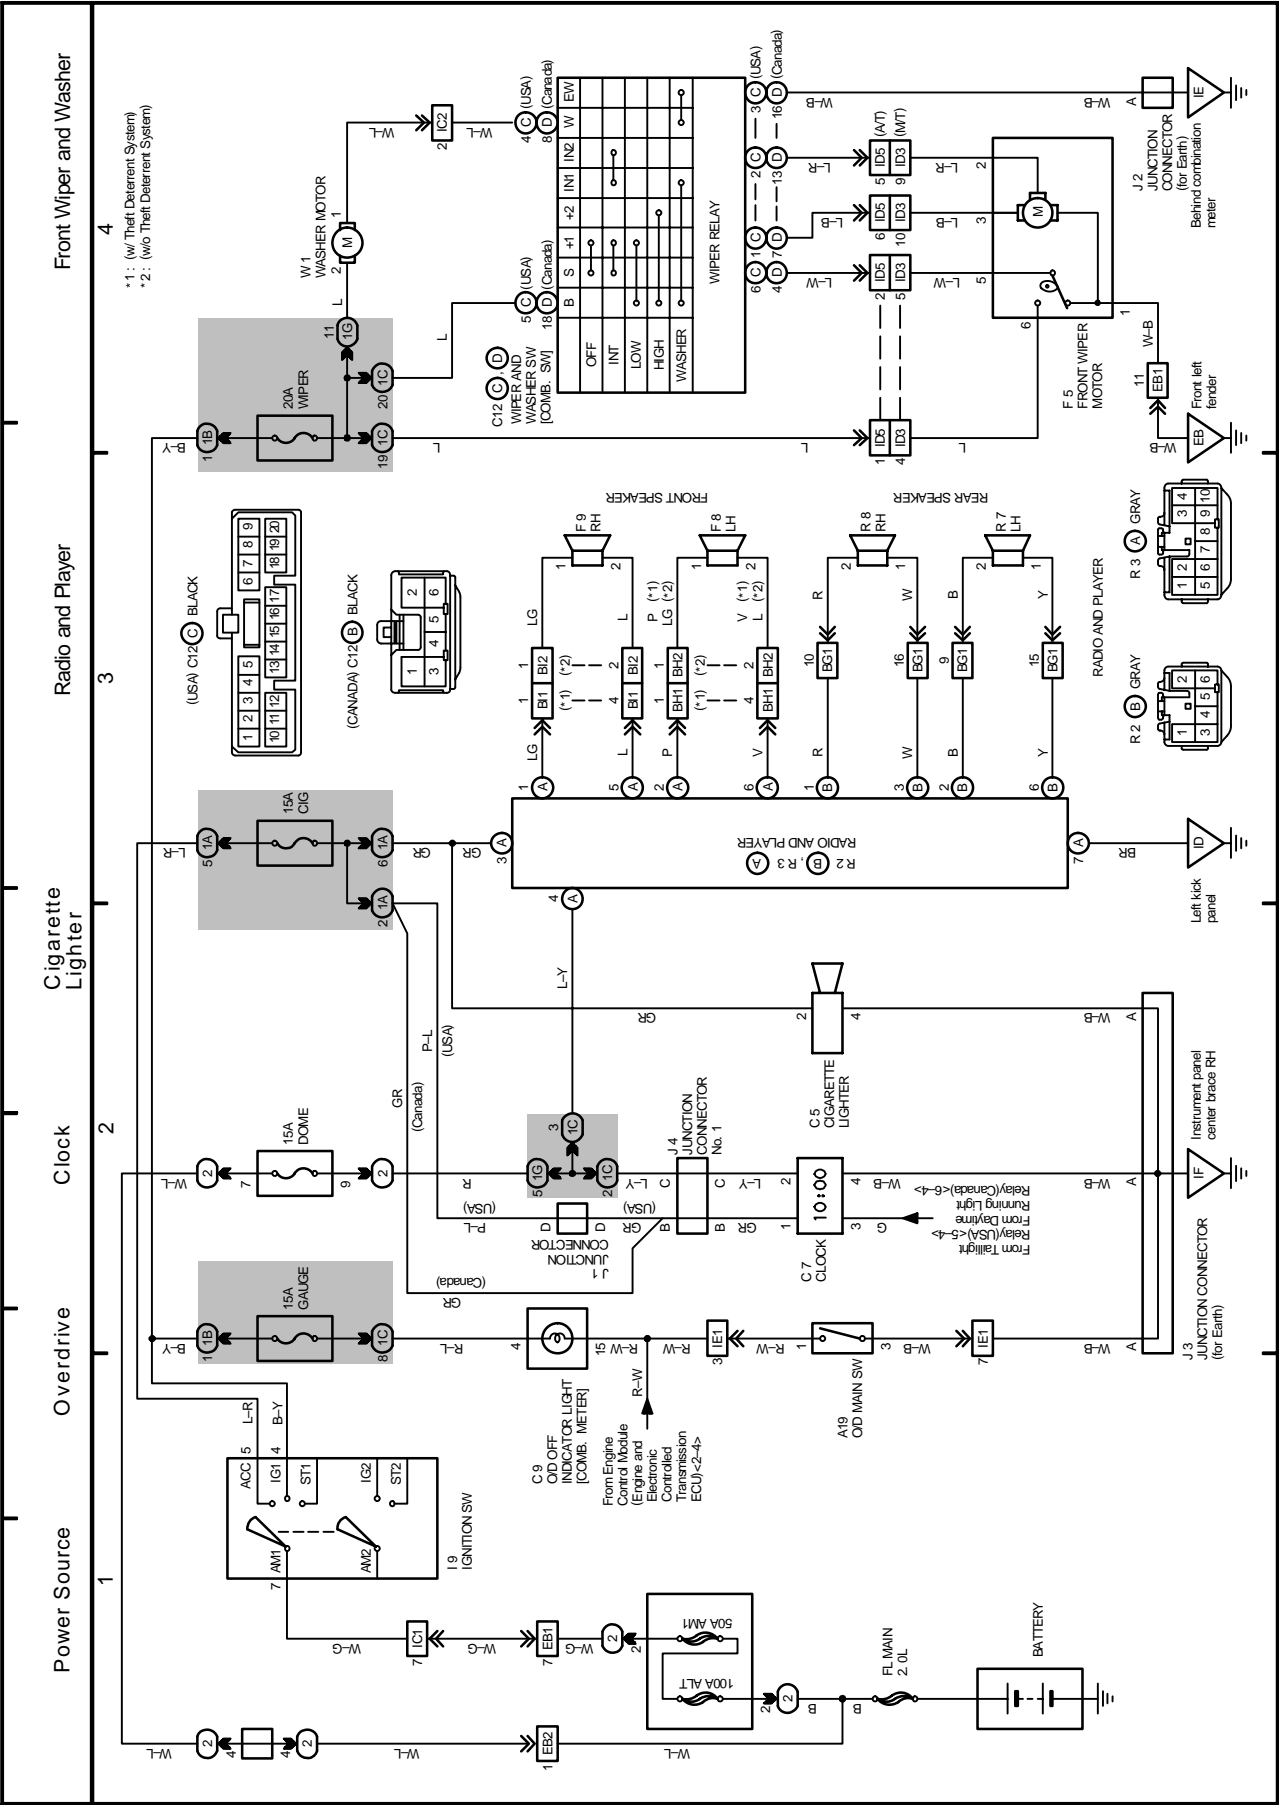

- Power Source:** The battery is connected to the main power line (W-L) through a 100A ALT and a 50A AM1 fuse. The main power line is connected to the ignition switch (IC1) and the stop light switch (S6).
- Stop Light:** The stop light switch (S6) is connected to the stop light bulb (1E) through a 10A STOP fuse. The stop light bulb is connected to the stop light switch (S6) and the stop light switch (S6).
- Interior Light:** The interior light switch (I10) is connected to the interior light bulb (1D) through a 15A DOME fuse. The interior light bulb is connected to the interior light switch (I10) and the interior light switch (I10).
- Back-Up Light:** The back-up light switch (B1) is connected to the back-up light bulb (1B) through a 15A GAUGE fuse. The back-up light bulb is connected to the back-up light switch (B1) and the back-up light switch (B1).

The diagram also shows the connection to the theft deterrent system, including the theft deterrent relay (D8) and the theft deterrent switch (D9).

OVERALL ELECTRICAL WIRING DIAGRAM

10 PASEO

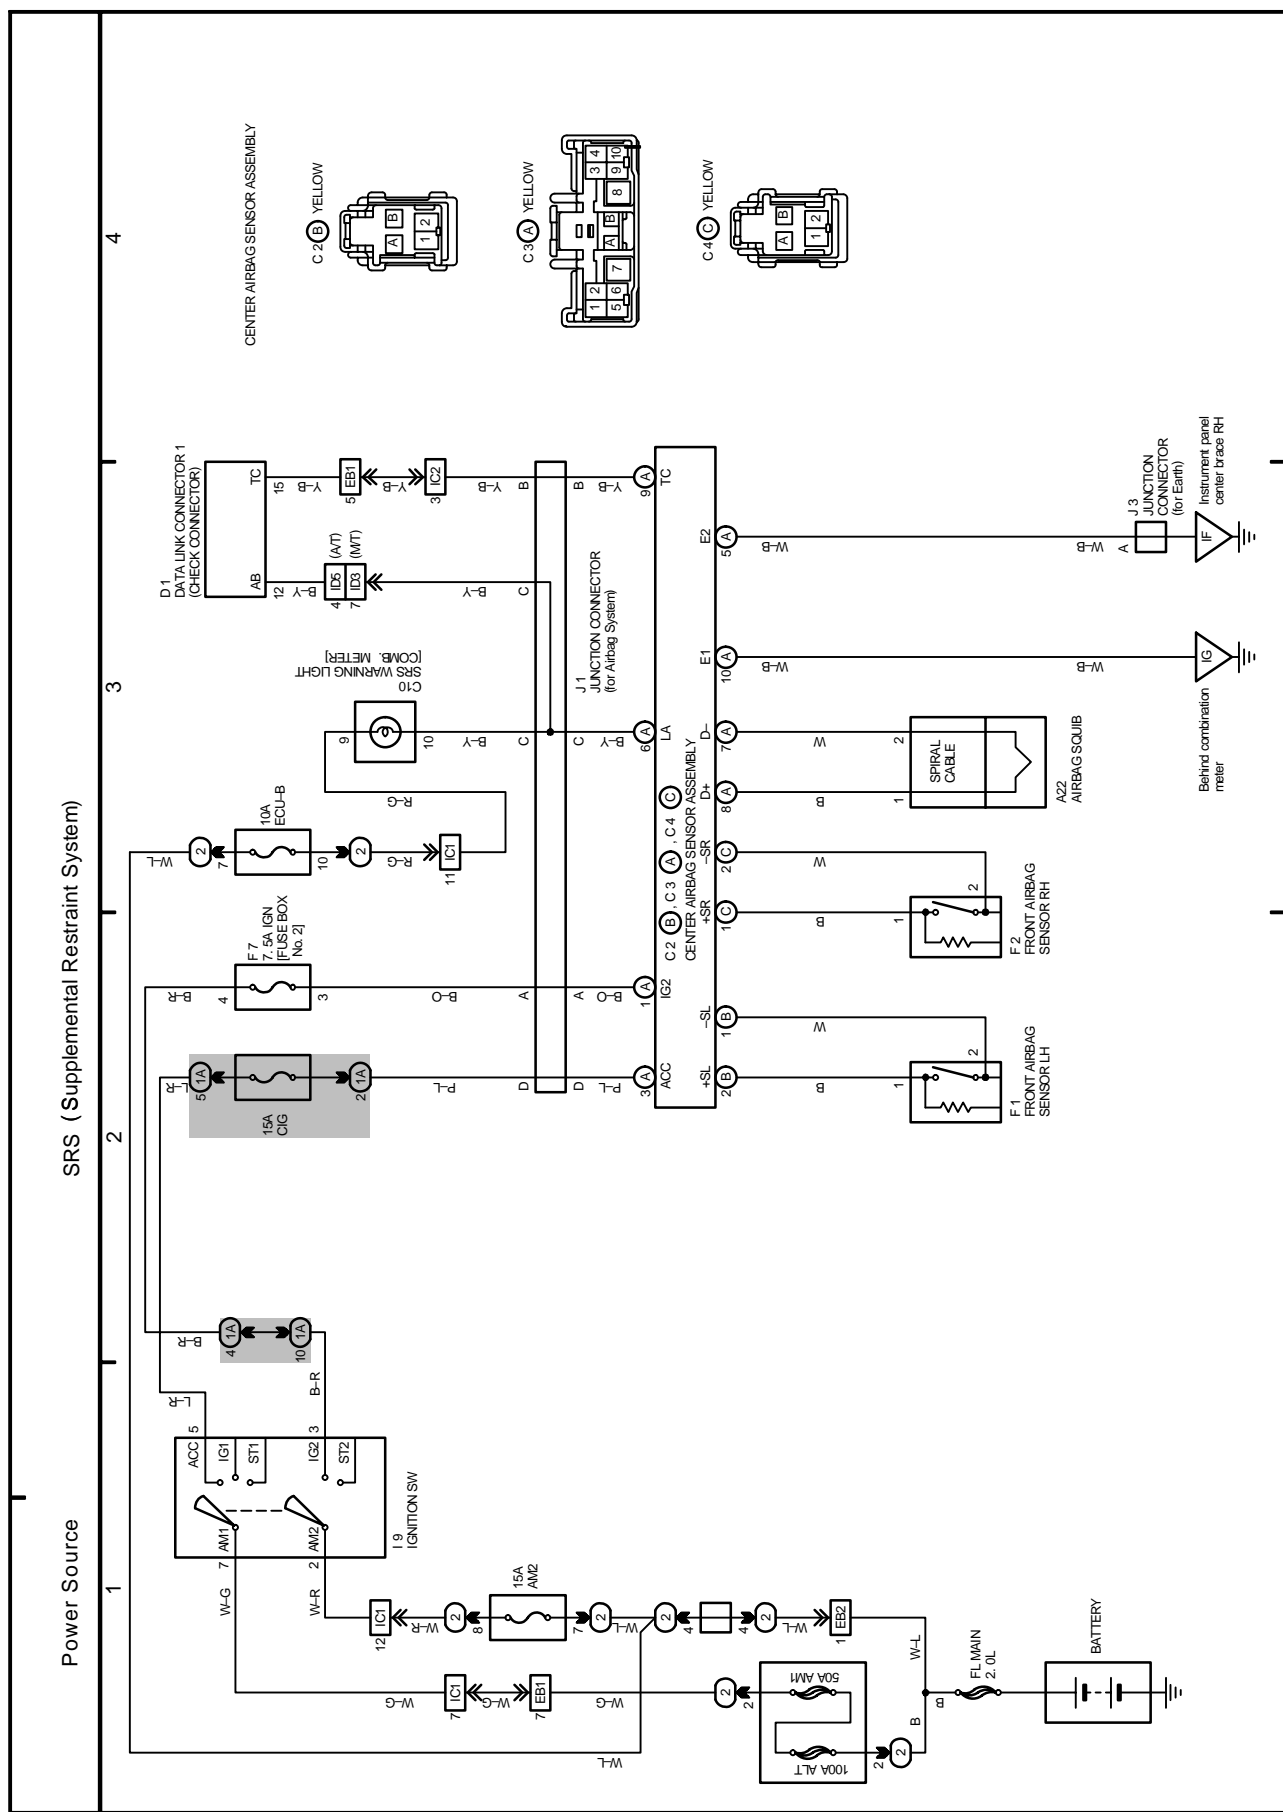

The diagram illustrates the electrical connections for a Theft Deterrent system, organized into four main sections:

- Power Source (1):** Shows the battery connected to the main fuse block (FL MAIN 2.0L). The system includes a 100A ALT and a 50A AM1 fuse. The ignition switch (19) is connected to the ACC line, which passes through fuses EB2, EB1, and EB2.
- Theft Deterrent (2):** This section contains the Theft Deterrent Horn (T1) and the Theft Deterrent Indicator Light (C9 and C10). The horn is connected to the ACC line through a 15A HAZ-HORN fuse. The indicator light is connected to the ACC line through a 15A CIG fuse. The system also includes a 15A DOME fuse and a 15A CIG fuse.
- Theft Deterrent (3):** This section shows the Theft Deterrent ECU (T4) and its connections to various vehicle systems. The ECU is connected to the ACC line through a 15A CIG fuse. It also controls the Theft Deterrent Indicator Light (C9 and C10) and the Theft Deterrent Horn (T1).
- Theft Deterrent (4):** This section shows the Theft Deterrent Indicator Light (C9 and C10) and the Theft Deterrent Horn (T1). The indicator light is connected to the ACC line through a 15A CIG fuse. The horn is connected to the ACC line through a 15A HAZ-HORN fuse.

The diagram also shows connections to various vehicle systems, including the Door Key Lock and Unlock SW/RH (D12), Door Key Lock and Unlock SW/LH (D11), Door Key Lock and Unlock SW/RH (D14), Door Key Lock and Unlock SW/LH (D13), Door Key Lock and Unlock SW/RH (D15), Door Key Lock and Unlock SW/LH (D16), Door Key Lock and Unlock SW/RH (D17), Door Key Lock and Unlock SW/LH (D18), Door Key Lock and Unlock SW/RH (D19), Door Key Lock and Unlock SW/LH (D20), Door Key Lock and Unlock SW/RH (D21), Door Key Lock and Unlock SW/LH (D22), Door Key Lock and Unlock SW/RH (D23), Door Key Lock and Unlock SW/LH (D24), Door Key Lock and Unlock SW/RH (D25), Door Key Lock and Unlock SW/LH (D26), Door Key Lock and Unlock SW/RH (D27), Door Key Lock and Unlock SW/LH (D28), Door Key Lock and Unlock SW/RH (D29), Door Key Lock and Unlock SW/LH (D30), Door Key Lock and Unlock SW/RH (D31), Door Key Lock and Unlock SW/LH (D32), Door Key Lock and Unlock SW/RH (D33), Door Key Lock and Unlock SW/LH (D34), Door Key Lock and Unlock SW/RH (D35), Door Key Lock and Unlock SW/LH (D36), Door Key Lock and Unlock SW/RH (D37), Door Key Lock and Unlock SW/LH (D38), Door Key Lock and Unlock SW/RH (D39), Door Key Lock and Unlock SW/LH (D40), Door Key Lock and Unlock SW/RH (D41), Door Key Lock and Unlock SW/LH (D42), Door Key Lock and Unlock SW/RH (D43), Door Key Lock and Unlock SW/LH (D44), Door Key Lock and Unlock SW/RH (D45), Door Key Lock and Unlock SW/LH (D46), Door Key Lock and Unlock SW/RH (D47), Door Key Lock and Unlock SW/LH (D48), Door Key Lock and Unlock SW/RH (D49), Door Key Lock and Unlock SW/LH (D50), Door Key Lock and Unlock SW/RH (D51), Door Key Lock and Unlock SW/LH (D52), Door Key Lock and Unlock SW/RH (D53), Door Key Lock and Unlock SW/LH (D54), Door Key Lock and Unlock SW/RH (D55), Door Key Lock and Unlock SW/LH (D56), Door Key Lock and Unlock SW/RH (D57), Door Key Lock and Unlock SW/LH (D58), Door Key Lock and Unlock SW/RH (D59), Door Key Lock and Unlock SW/LH (D60), Door Key Lock and Unlock SW/RH (D61), Door Key Lock and Unlock SW/LH (D62), Door Key Lock and Unlock SW/RH (D63), Door Key Lock and Unlock SW/LH (D64), Door Key Lock and Unlock SW/RH (D65), Door Key Lock and Unlock SW/LH (D66), Door Key Lock and Unlock SW/RH (D67), Door Key Lock and Unlock SW/LH (D68), Door Key Lock and Unlock SW/RH (D69), Door Key Lock and Unlock SW/LH (D70), Door Key Lock and Unlock SW/RH (D71), Door Key Lock and Unlock SW/LH (D72), Door Key Lock and Unlock SW/RH (D73), Door Key Lock and Unlock SW/LH (D74), Door Key Lock and Unlock SW/RH (D75), Door Key Lock and Unlock SW/LH (D76), Door Key Lock and Unlock SW/RH (D77), Door Key Lock and Unlock SW/LH (D78), Door Key Lock and Unlock SW/RH (D79), Door Key Lock and Unlock SW/LH (D80), Door Key Lock and Unlock SW/RH (D81), Door Key Lock and Unlock SW/LH (D82), Door Key Lock and Unlock SW/RH (D83), Door Key Lock and Unlock SW/LH (D84), Door Key Lock and Unlock SW/RH (D85), Door Key Lock and Unlock SW/LH (D86), Door Key Lock and Unlock SW/RH (D87), Door Key Lock and Unlock SW/LH (D88), Door Key Lock and Unlock SW/RH (D89), Door Key Lock and Unlock SW/LH (D90), Door Key Lock and Unlock SW/RH (D91), Door Key Lock and Unlock SW/LH (D92), Door Key Lock and Unlock SW/RH (D93), Door Key Lock and Unlock SW/LH (D94), Door Key Lock and Unlock SW/RH (D95), Door Key Lock and Unlock SW/LH (D96), Door Key Lock and Unlock SW/RH (D97), Door Key Lock and Unlock SW/LH (D98), Door Key Lock and Unlock SW/RH (D99), Door Key Lock and Unlock SW/LH (D100).
